Application/Control Number: 10/689,066

Art Unit: 3723

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Meetze.

Meetze shows a stack of planks bound at opposite peripheries with a cover layer coating of tape which extends on to the bottom of the stack of planks. Since the cover layer has low tack adhesive 14 therein, the cover layer is deemed to have a hardness less than that of the planks. Statements pertaining to the subsequent use that the stack of planks will be used for has no patentable significance. In any case, the planks of Meetze could be used as a support for chopping.

Claims 1, 2, and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Piper.

Piper shows a stack of planks 12, 13 bound at opposite peripheries with a cover layer 63 coated on the periphery and bottom of the stack of planks. The ceramic and metal planks are deemed to be harder than metallized coating that is applied to the planks. Statements pertaining to the subsequent use that the stack of planks will be used for has no patentable significance. In any case, the planks of Piper could be used as a support for chopping.

Claims 3-11 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 8/1/05.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert C. Watson whose telephone number is 571 272-4498. The examiner can normally be reached on Mon. - Thurs., 5:30am - 4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph J. Hail III can be reached on 571 272-4485. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
